

Model Name

Pictures

Functions

SVP-911
63A

1. Over-voltage protection
2. Under-voltage protection
3. Automatic recovery

SVP-60
40A

1. Over-voltage protection.
2. Under-voltage protection.

SVP-60L
40A

1. Over-voltage protection.
2. Under-voltage protection.
3. Voltage meter.

SVP-60LT
40A

1. Over-voltage protection
2. Under-voltage protection
3. Voltage meter
4. Automatic recovery

new model
with Dual indicator light

SAP-32
5A

1. Over current protection
2. Automatic recovery

new model

SAP-30A
30A

1. Over current protection
2. Automatic recovery

new model

SVP-912-40A

SVP-912-63A

1. Over-voltage protection
2. Under-voltage protection
3. Automatic recovery
4. Volt-meter

The default is 220V, 110V is optional

SVP-912-80A

SVP-916-40A

1. Over-voltage protection

SVP-916-63A

- 2. Under-voltage protection
- 3. Over-current protection
- 4. Automatic recovery
- 5. Voltage display (voltage measurement)
- 6. Current display (current measurement)

The default is 220V, 110V is optional

SVP-916-80A

SVP-915-40A

- 1. Over-voltage protection
- 2. Under-voltage protection
- 3. Automatic recovery
- 4. Volt-meter

SVP-915-63A

SVP-915A

- 1. Over-voltage protection
 - 2. Under-voltage protection
 - 3. Over current protection
 - 4. Automatic recovery
 - 5. Volt-meter
 - 6. Amp-meter
 - 7. KWH meter (99,999kwh)
-

SVP-63A

- 1. Over-voltage protection
- 2. Under-voltage protection
- 3. Over current protection
- 4. Automatic recovery
- 5. Volt-meter
- 6. Amp-meter

SVP-917-63A

- 1. Over-voltage protection
- 2. Under-voltage protection
- 3. Over current protection
- 4. Automatic recovery
- 5. Volt-meter
- 6. Amp-meter

SVP-917-80A

- 7. power-meter
- 8. KWH meter (99,999kwh)
- 9. with backlight

new model

SVP-918-40A

- 1. Over-voltage protection
- 2. Under-voltage protection
- 3. Over-current protection
- 4. Automatic recovery
- 5. Recovery delay time adjustable
- 6. Voltage display
- 7. Current display

SVP-918-63A

- 8. with Manual switch button , power button

new model

SVP-977-63A

SVP-977L-63A

1. Over-voltage protection
2. Under-voltage protection
3. Over-current protection
4. Automatic recovery
5. Recovery delay time adjustable
6. Voltage display
7. Current display
8. Temporary KWH can be reset
9. Cycle countdown timer

SVP-977-80A

new model

SVP-977L-80A

STVP-60

60A

1. Over-voltage protection
2. Under-voltage protection
3. Automatic recovery

new model

STVP-100

125A

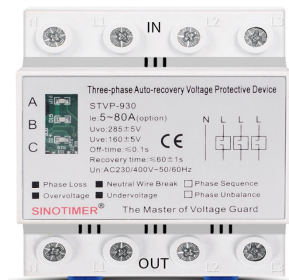

1. Over-voltage protection
2. Under-voltage protection
3. Automatic recovery

new model

STVP-930

80A

1. Over-voltage protection
 2. Under-voltage protection
 3. Zero line break protection
 4. Phase failure protection
 5. Phase sequence protection (reverse phase protection) (Option)
 6. Three-phase voltage unbalance protection
- new model

STVP-932

80A

1. Over-voltage protection
2. Under-voltage protection
3. Voltage display (separate ABC phase volt measurement)
4. Three-phase volt unbalance protection
5. Phase sequence protection (reverse phase protection)
6. Zero line break protection
7. Phase failure protection
8. Over-voltage protection value adjustable
9. Over-voltage recovery value adjustable
10. Over-voltage protection action time adjustable
11. Under-voltage protection value adjustable
12. Under-voltage recovery value adjustable
13. Under-voltage protection action time adjustable
14. 3 phases volt unbalance protection value adjustable
15. 3 phases volt unbalance protection action time adjustable
16. Delay time after power-on adjustable
17. Fault recovery delay time adjustable

STVP-936-50

50A

1. Over-voltage protection
2. Under-voltage protection
3. Over-current protection
4. Voltage display (separate ABC phase volt measurement)
5. Ampere display (separate ABC phase amp measurement)
6. Three-phase ampere unbalance protection
7. Phase sequence protection (reverse phase protection)
8. Zero line break protection
9. Phase failure protection

STVP-936-63

63A

10. Over-voltage protection value adjustable
11. Over-voltage recovery value adjustable
12. Over-voltage protection action time adjustable
13. Under-voltage protection value adjustable
14. Under-voltage recovery value adjustable
15. Under-voltage protection action time adjustable
16. Over-current protection value adjustable
17. Over-current protection action time adjustable

STVP-936-80

80A

18. 3 phases amp unbalance protection value adjustable
19. 3 phases amp unbalance protection action time adjustable
20. Delay time after power-on adjustable
21. Fault recovery delay time adjustable
22. Reset mode selection
23. Fault inquiry
24. Factory data reset

rotation display voltage and current for each phase
